授業のねらい (概要)	The curriculum goal is collaboration and a global perspective. This course provides strategies and techniques for the improvement of clarity and precision in spoken English. The course is centered on areas most critical in making speech more comprehensible: word and phrasal stress, intonation, and rhythm. In addition, there will be individual and class work on specific vowel and consonant sounds focusing on the phonemes which frequently cause communication breakdown. Approaches to improving pronunciation outside of class will also be incorporated.
